

Recorded model run · current UI excerpts

Only task input: 最适合移民的国家是哪一个

a · Discover

Hop 5 / 12 · inside community 28

30 communities · 43 encountered files

● Current hop ● History ● Current frontier

● Unvisited community

Final selected file

Quality of life index by countries 2020.csv

80 rows · 10 columns

b · Prepare

Root quality_life

● CastType

● DropNulls

● Sort

● Terminate

Recorded type: input → output

Country object → string

80 rows 10 columns

Executed data preview

Country	Quality of Life Index
Denmark	192.67
Switzerland	192.01
Finland	190.22

Preview: first 3 rows, 2 of 10 columns.

c · Analyze → Report

```
SELECT "Country", "Quality of Life Index"
FROM data
WHERE "Quality of Life Index" IS NOT NULL
ORDER BY "Quality of Life Index" DESC
LIMIT 1;
```

Five report sections

分析范围与判断方法

综合生活质量：丹麦领先，但优势不宜夸大
为全维度最佳

收入购买力、安全与医疗：领先国家不同

成本、住房、通勤、污染与气候：生活便利性的取舍明显

候选国家的优势与代价

Concludes with conditional recommendations and missing-policy limitations.

Historical run · one successful preparation path · no Debug or backtracking. DOM excerpts rearranged for print.
